

EU Referendum

Briefing Note 2 5 August 2017

Contents:

Section 1: Key messages

Section 2: Actions Update

Section 3: Ministerial Update

Section 1: Key Messages

- 1. Our major investments, e.g York Potash are not reporting any negative impact from Brexit and continue as planned. Indeed, we have started additional work with York Potash to provide more opportunities for local businesses to access their supply chain.
- 2. Key businesses across the region are reporting 'business as usual'
- **3. Government are committed** to an Industrial Strategy this is good for business and we are contributing to its development.
- **4. Our EU programme** is continuing as planned. We have an £18m skills programme which is contracted and on track to start delivery in November and the £400m Northern Powerhouse Investment Fund is due to be launched before Christmas. In addition, there are new funding opportunities emerging for tourism infrastructure and food processing companies, both key sectors for our region.
- 5. Bank of England has reduced interest rates to a historic low of 0.25% and provided an additional £60bn quantitative easing. Whilst some national indicators such as the IHS Markit/CIPS Purchasing Managers Index are reporting a drop in output, local businesses feedback indicates an air of caution and we are not reporting the heavy loss of confidence seen in some city regions.

Previous Messages from the LEP

"Britain's economy is one of the strongest in the world with low, stable inflation, high employment and a resilient financial system"

"There could be opportunities as more businesses wanting to access the UK market seek to locate here"

"The UK remains a great place to do business and is the highest ranked major economy in terms of ease of doing business"

"Our local economy has the largest private sector investment in Northern Powerhouse, resilient small businesses and unrivalled quality of life, the number one issue for investors"

"We expect our EU programme to continue and are offering solutions to government in order to retain investment in our area. We are working cross sector including research & agriculture to understand the positive impact of EU funding and we will be making a strong case to government to maintain the levels of investment"

Section 2: Actions Update

Action	Update
Consistent	 Key messages are included in this brief.
Communications	 A letter signed by Northern LEPs and Local Authorities has been sent to the Prime Minister urging continued investment in the North of England. Support for the North seems to be retained with Andrew Percy MP having the specific remit.
Local Impact	 East Riding are leading on collating EU funding attracted into the region. This is complete for East Riding and is being rolled out to York & North Yorks. A summary will be ready in August.
	2. Universities continue to pull together a summary on the impact on HE. The role of Universities in driving innovation and growth is important and we strongly support the case for government to maintain their access to EU staff, students and continued investment in research and innovation. The key risks are:
	Access to EU Staff
	 Ability to attract EU students
	Access to EU wide research & collaborations
	EU Funding programmes
	3. FE colleges are reporting less impact. The direct exposure to EU funding is lower in our area than some other regions where colleges have built up capacity to manage large EU contracts. The main threat is to funding via our LEP EU Funding programme for workforce skills.
	4. The LEP 'Hows Business' small business feedback corroborates FSB data that says Yorkshire is one of the most confident following on from Brexit. The ICAEW are also reporting that, though there was a sharp drop in business confidence immediately following on from Brexit, business owners are now settling into a period of caution and uncertainty and are waiting to see how the results of Brexit will play out.
	A note of caution: this is, of course, a general snapshot of the area and it doesn't look at issues that are specifically facing manufacturers, exporters and

business owners with global supply chains. 5. Local Authorities Key Account Management teams retain relationships with the larger businesses in the region. Whilst there are clear risks, we are not currently reporting any direct impact or deferred investment decisions. To support LA Key Account Managers we are arranging a 'lunch and learn' in September with senior business leaders from our region to fully understand the discussions happening within business. We will use this opportunity to also engage on the emerging industrial strategy to ensure our response is collaborative. 6. Nationally, the IHS Markit/CIPS Purchasing Managers Index released on 2 August was less positive, indicating a drop in output across services, manufacturing and construction. Anecdotal evidence suggested economic uncertainty following Brexit as the main factor, however there were also reports suggesting some demand patters had been more resilient than expected with some companies reporting new enquiries linked to the weaker pound. This data reflects the decision by the Bank of England to reduce interest rates to a historic low of 0.25% and increase quantitative easing by £60bn Annex 1 provides the latest PMI Index release for construction, manufacturing and services, together with links to the FSB, ICAEW, IOD and North & West Yorkshire Chamber of Commerce Business Surveys **Keep Momentum** We expect the EU programme to go ahead and projects should continue to progress towards delivery. We have had confirmation from SFA, DWP and Big Lottery our 'opt ins' are contracted and will progress despite Brexit. This means we will have a £18m Skills programme which will be procured and launched in November this year. We are still awaiting confirmation that DCLG will progress signing new contracts, however we are continuing to develop programmes as planned. There are **new opportunities** emerging for tourism infrastructure and food processing through the DEFRA approach to EAFRD Rural Funding.

	Overall, as a LEP area, we are ahead of profile with regard to the interim targets within our ESIF programme and expect to fully deliver on our commitments. It should be noted there could be some short term risks to 2016/17 outputs due to delays in signing. Whilst no firm commitments have been received from government, messages from ministers around the importance of EU programmes, have been welcomed. The message to partners remains 'Partners should continue to develop their projects and whilst government are unable to sign contracts until they have more clarity, we remain committed to the EU Structural & Investment Fund programme to deliver growth' Annex 2 provides a summary of our programme.
Rural & Farming	There remains significant concern around the potential impact on agriculture in relation to the Common Agriculture Policy, single farm payments and environmental stewardship payments to name a few.
	Clearly the impact at this time is unknown, however given farm gate prices for produce, many farmers are already border line viable.
	There is potential for significant economic and social impact of decisions regarding agriculture.
	It is critical that all rural areas work together to understand the impacts and make the case to government for continued support for our rural and agricultural areas.
	An Update will be provided in August.

\sim								٠

\sim	\sim	~	v		·	u			~	

As the situation evolves we continue to look for opportunities for the region. Currently, these include.

- The UK government have committed to developing a comprehensive Industrial Strategy, led by Greg Clark MP. We will be working with businesses in our area to ensure we submit a robust evidence base targeting our key opportunities.
- We are in discussion with York Potash around specific supply chain opportunities which could increase the local benefits and impact of this major investment. This could provide new opportunities for businesses across the LEP area.
- DEFRA have indicated that the EAFRD funding is likely to focus on capital investment for tourism infrastructure and food processing. Tourism could include Commercial projects, Events and festivals or enhancing projects – cycle ways, foot paths etc.
 - This provides opportunities for these key sectors in our economy. The calls for projects are likely to launch Sept/Oct and we are engaging key partners to stimulate potential investments.

Section 3: Ministerial update

Annex 3 provides a list of all Government Ministers.

Key appointments to note:

Rt Hon Chris Grayling MP (Con)
Paul Maynard MP (Con)
The Lord Ahmad of Wimbledon (Con)
Andrew Jones MP (Con)
Rt Hon Sajid Javid MP (Con)
KETIOH Sajia savia Wir (Conj
Gavin Barwell MP (Con)
Rt Hon Greg Clark MP (Con)
The Baroness Neville-Rolfe DBE CMG
(Con)
Mr Nick Hurd MP (Con)
WENTER THE LEGIT
Joseph Johnson MP (Con)
Rt Hon Andrea Leadsom MP (Con)
The Front Andrea LeadSon Will (COII)
George Eustice MP (Con)

Annex 1: Business Surveys

IHS Markit/CIPS Purchasing Managers Index[©]: 2 August 2016

Key Findings: (Anything below 50 is contraction in the sector)

Comicae	
Services	 Services output and new business both fall at fastest rates since March 2009
	Expectations weakest since February 2009
	 Employment unchanged since June ending 3½ year period of uninterrupted job growth
Manufacturing	UK Manufacturing PMI posts 48.2 in July
	 Domestic market hit by pre- and post-referendum uncertainty
	 Weaker sterling exchange rate aids new export growth
Construction	Fastest overall drop in output since June 2009
	All three sub-categories record lower output, led by commercial activity
	New orders fall at slower pace than June
