

Project Name	GBF Grant Recipient / Contract	Project Description	Date work started	GBF awarded (£)
2020				
York College - Increasing technical skills capabilities in Electric Vehicle technologies	York College of Further and Higher Education	York College is investing in low carbon electric vehicle skills development through an extension to existing workshop space and state of the art technologies. The project intention is to increase skills and knowledge of individuals in the sector (of circa 180,000 known vehicle technicians in the UK, only c21,000 hold an EV qualification, and only 5% hold a Level 3/4 qualification) and those wishing to reskill to contribute to the Government net-zero carbon target. In the current climate this project will contribute to an increase in capacity for individuals to up/reskill to access the low carbon jobs market.	01/05/2020	£150,000
A19 Chapel Haddlesey	North Yorkshire County Council	The project involves reconstruction of the embankments and carriageway of the A19 between Eggborough and Chapel Haddlesey, which was severely damaged during storms and flooding in February 2020. The road has been closed to all traffic since then. Completion of the project will allow the A19 to fully reopen.	01/08/2020	£6,000,000
Electric Car and Green Skills (Scarborough)	Scarborough TEC, a brand and college as part of the TEC Partnership	Extending IOT investment (underway now) through Scarborough TEC, this project will support the purchase Electric Car/Training equipment so that low carbon Motor Vehicle Maintenance Courses and charging bays can be installed to promote green transport (education and training and Employability). In addition, the project will provide new engineering technologies, to introduce Hybrid/Electric transport courses from Sept 2020. There is immediate training demand on the forecourt and in garages.	01/08/2020	£97,000
Enhancement to the Digital Hub Central Northallerton - eCampus	Hambleton District Council	A town centre building will be re-purposed as an e-Campus that will provide the local community with a micro-university environment. Combining high quality, contemporary physical learning and collaboration space, with on-line learning, knowledge transfer and outreach, the e-Campus will offer a combination of academic and commercial programmes tuned to local requirements and contexts. Commercial training provision aids sustainability by providing local flexibility to develop and deliver programmes independently of core University provision. Knowledge transfer capacity provide access to HE RD&I expertise. Access will be provided to training that is accredited/non-accredited and at all academic levels, up to and including Level 7	31/08/2020	£725,000
Whitby Business Park	Scarborough Borough Council	Creation of 10,000sqm of new b1,b2,b8 business space within Whitby business park. Business units will be small flexible industrial units ranging with modular dividing walls and can accommodate 1,300m2 to 5,000msq. Units will provide essential space for Whitby's small / micro business economy. Significant latent demand exists for such business space as there is no existing available provision within the town constraining economic growth potential. All units have been prelet prior to commencement of works and demand remains post Covid.	30/09/2020	£1,079,058
North Yorkshire Digital Infrastructure Programme	North Yorkshire County Council	This project has 3 interrelated components that will build on existing investment of the LLFN investment with NYNet and look to deliver: 1. North Yorkshire wide IoT network, delivering new services for Health, Tourism, Agriculture, and Highways. 2. Town Centre WIFI to enable new town centre services and help support businesses in the light of Covid 3. Business Park LLFN investment to enable fibre connectivity to businesses on business parks.	01/10/2020	£3,283,942
Harrogate West Business Park	Teakwood Developments Limited, Teakwood Investments Limited	This project is to facilitate the new road infrastructure, site access and utilities at a key site west of Harrogate. The project will address a lack of employment opportunities. Units from 2,500 to 25,000ft to provide starter units and grow-on space for local SME's will be built. The delivery of new industrial floorspace will safeguard existing jobs; allow for the creation of new job opportunities and inward investment opportunities	01/10/2020	£1,500,000
2021				
Development Programme	YNY LEP	Management of programme	01/04/2021	£385,000
Digital Skills Academy	Askham Bryan College	This project is to build a Digital Skills Academy to ensure the future workforce has the digital skills expected by employers as we move into a more digitally focused era. It will also provide facilities to upskill the current work force in emerging digital technologies. The construction of a purpose built digital learning space specifically designed for digital teaching and learning will ensure all students have access to the training and facilities required to enable them to proceed into work with the digital skills required by industry.	01/05/2021	£1,000,000
York Guildhall - fit-out	City of York Council	This project is for the internal fit out of the historic Guildhall building in York for use as high-quality office space and business start-up location. The project is for the internal fit out of the historic Guildhall building in York for use as high-quality office space and business start-up location. It will provide up to 1,300m2 high quality accessible office workspace with associated facilities and with access to the highest levels of digital connectivity to suit the demand profile of early stage/high growth business. This will be key to supporting the local economy of York in the post Covid 19 recovery phase.	01/09/2021	£300,000

£15,400,000.00
